## TECHNICAL SKILLS

**Technology:** Swift, Objective-C, Java, XML, GraphQL, Ruby, Rails, React Native, React.js, Typescript, Redux

---

## EXPERIENCE

**Fandango** – Senior iOS Developer | Sunnyvale, CA August 2019-present

- ◆ Built out a Lists feature that allows users to customize groups of movies/shows.
- ◆ Maintained compatibility with iOS 15.
- ◆ Built out a code extensible that allowed both iOS and tvOS teams to build features together.
- ◆ Created a TVML template, that saves app store release time for UI changes.

**Carmates** – Software Developer | Sunnyvale, CA March 2018-August 2019

- ◆ Built out Carmates's dashboard, that helps manage car repair services. Written in React+Typescript.
- ◆ Built out new endpoints of Carmates's backend, using GraphQL and Node.js.

**SprungSpot** – iOS+Web Developer | San Francisco, CA January-March 2018

- ◆ Developed Sprung's fitness iOS app that connects to ChromeCast TV and OpenTok APIs, in Swift.
- ◆ Lead the development on a web receiver app for ChromeCast, in React.js.
- ◆ Implemented and contributed to a 3rd-party library

**ShipHawk** – Full-Stack Developer Intern | Santa Barbara, CA June-September 2016

- ◆ Built out new endpoints of the ShipHawk API and worked on ShipHawk's core Ruby on Rails app.
  - ◆ Developed order management features of ShipHawk's customer-facing dashboard using React & Redux.
- 

## PROJECTS

**TournaMake Pro (Web and iOS)** | San Jose, CA March-December 2018

- ◆ Over 1000 users on TournaMake Pro.
- ◆ Multi-Platform app that helps create/display bracket tournaments of players/teams online.
- ◆ Back end written in Node.js and GraphQL.
- ◆ Website (React.js) at <https://www.tournamake.com>. Supports Pickems/predictions, March Madness style.

**TournaMake (iOS only)** | San Francisco, CA Nov 2015-Jan 2016

- ◆ iOS utility that helps people create, score and rank generic tournaments: <http://apple.co/1Wcmytc>
-
